Project Resume:

Mayflower Seafood Restaurant

Winston-Salem, North Carolina

The Mayflower Seafood restaurant was created by our design build division. CH & Sons designed this building to accommodate the owners' needs and budget. The Mayflower restaurant is a pre-engineered metal building that incorporates a split-face block exterior. In addition, we curtailed this restaurant with particular details such as port holes on the side of the building to meet the customers anticipated vision.

Owner: George Andros

Specs: 6100 square foot

Design: The Patterson Design Group - Mark B. Patterson AIA
