Project Resume:

Charlotte, North Carolina
Murata Machinery USA

CH & Sons Construction Inc. completed phase one at the Murata Machinery Plant in the summer of 2007. This project is comprised of a 10,000 square foot building addition. Details include:

- Pre-engineered Metal Building
- One Truck Dock
- Complete site work
- Concrete work
- Retention Pond
- Asphalt Paving Parking lot
- Electrical work

Phase two was a Retro-fit that added an additional 8000 SF to the existing building. Within the existing building CH & Sons added an additional 120 feet to the existing 40 feet of Crane track. This project was completed in December of 2007.
