

Project Resume:

Charlotte, North Carolina

South Boulevard Retail Shops

Specs:

5000 SF Commercial Building

Location:

Woodlawn & South Boulevard

Designer:

Camas Associates Architects PA

South Boulevard Retail Shop will be the future home for Java Detour, Sun Com, and one additional retail space. The building specs include Travertine stone that wraps the exterior of the building and Eifs that finishes the upper part of the building to include the parapet walls. The roof has two parts, one is the tower that has a Decra roofing system that combines metal and asphalt for durability and longevity and the main roof is a rubber membrane that is concealed behind the parapet wall.
